

# HD 1250 DE CAGE

The mobile diesel high pressure cleaner

## Benefits

- Robust, compact and portable device with lockable air tires
- Best output in its class
- High performance diesel engine
- Electric starter

## General description

The high pressure cleaner HD 1250 DE Cage is designed in a compact stainless steel frame and can be transported within the pre-treatment module of the Cage Based Modular Decon System. The main task is to clean large-scale facilities during a decontamination process. The device is ready for use in ten minutes and can operate with a 5 litre diesel tank for more than 2.5 hours. The equipment can be used at temperatures from -30°C to +48°C. The high pressure cleaner is equipped with a 15 m long hose. It has an output of 1,800 litres per hour at 80 bars.

## Technical data

Total weight	approx. 148 kg
Fuel consumption	1.9 l/h
Fuel type	Diesel
Temperature	from -30 °C to +49 °C
IP class	X5
